Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Further to the conversation between the applicant's representative, Euborn Chiu, and Examiner Kyle R. Stork that took place December 23, 2010, a Supplemental Information Disclosure Statement is being submitted herewith. The references listed on form PTO/SB/08 were previously cited in timely filed Information Disclosure Statements and copies of the references were submitted as required. However, the references were not indicated to have been considered. It is therefore believed that neither a certification under 37 CFR §1.97(e) nor the fee under 37 CFR § 1.17 (p) are required and that a Request for Continued Examination need not accompany this Supplemental IDS. Additional copies of the cited foreign patent and non-patent literature references are enclosed for the convenience of the Examiner. The Examiner is respectfully requested to make these documents of record in the above-referenced matter.

Applicants would like to restate the following:

- An English language abstract has been provided for all non-English language patent references.

- A full English language translation has been provided for non-patent literature references 2-4 listed on form PTO/SB/08.
- An English translation is not provided for non-patent literature reference 1 (Bleich). This document was cited in the International Search Report of PCT/JP2004/016509, of which the present matter is a PCT National Phase Patent Application under 35 USC 371.

The information contained in the Information Disclosure Statement under 37 CFR §1.97 and §1.98 is not to be construed as a representation that: (i) a complete search has been made; (ii) additional information material to the examination of this application does not exist; or (iii) the information, protocols, results and the like reported by third parties are accurate or enabling. Further, no representation is made that a reference listed on the accompanying Form PTO/SB/08 is “prior art” within the meaning of 35 USC §102 and §103, and Applicants reserve the right, pursuant to 37 CFR §1.131 for example, to establish that the reference(s) are not “prior art.”

Applicants would appreciate the Examiner initialing and returning the Form PTO/SB/08a/b, indicating that the information has been considered and made of record herein.

Dated: January 5, 2011

Respectfully submitted,

By /Peter J. Yim/
